Summary

Data Analyst with 1+ year of experience in **ETL operations, data validation, and production support**. Skilled in **monitoring workflows, handling alerts, troubleshooting data issues, and ensuring SLA adherence**. Proficient in **SQL, Python, Advanced Excel, and data processing**, with hands-on experience in automation and incident resolution. Strong analytical mindset with the ability to work in **24x7 support environments and cross-functional teams**.

Experience

Openlinks Foundation - Jr. Data Analyst (Onsite)

Mar 25 - Present

- Monitored and maintained ETL workflows, ensuring smooth execution and timely issue resolution.
- Handled alerts, failures, and incidents, performing root cause analysis and resolving within SLA timelines.
- Performed data validation, cleansing, and reconciliation to ensure high data accuracy.
- Automated ETL and reporting processes using SQL, Python, and Excel, reducing manual effort by 40%.
- Executed manual data processes and checks for critical workflows.
- Conducted final quality validation and sanity checks before report delivery.
- Collaborated with stakeholders for issue tracking and resolution, improving turnaround time by 25%

AARETE Technosoft: Business Analyst Intern (Onsite)

Aug 25 -Dec 25

- Worked with US healthcare payer clients using OCR and Regex to digitize 64,000+ insurance contracts.
- Analyzed DOFR, Carve-outs, and Payment Conditions for contract interpretation.
- Performed EDA, ETL, and Root Cause Analysis for contract variations.
- Improved data accuracy by 50% through validation and quality checks.
- Processed Mainsheet with Line of Business (LOB)-wise reimbursement validation to ensure accuracy.
- Collaborated with cross-functional teams to develop structured data solutions based on requirements.
- Supported cost optimization and operational efficiency initiatives in healthcare consulting projects.

SKILLS – ETL OPERATIONS & SUPPORT

- ETL Monitoring:** Workflow monitoring, job scheduling, batch processing, alert handling
- Production Support:** Incident management, ticketing (JIRA), troubleshooting, SLA adherence
- Data Validation:** Data quality checks, reconciliation, data cleansing, sanity testing
- Technical:** SQL (queries, joins), Python (basic scripting), Advanced Excel
- Data Concepts:** ETL pipelines, data transformation, MySQL, basic cloud concepts
- Tools:** JIRA, Power Query, Power BI, Zoho Analytics
- Soft Skills:** Analytical thinking, problem-solving, communication, shift flexibility

Skills

- Data Mapping & Data Analysis
- SQL
- ETL & Operations Support
- Stakeholder Management
- Root Cause Analysis
- Data Validation & QC
- Incident Management
- Process Execution
- SLA Adherence

Education

- B.E. (E&TC Engineering)
Zeal College of Engineering & Research, Pune
7.8 CGPA (2024)
- XII (Science)
Samarth Junior College, Nagpur
68% (2020)
- X
Providence School
Mansar, Nagpur
86.6% (2018)

Certifications

- Data Science Training and Certification
- Data Analyst Training and Certification
- IBM DevOps Fundamentals Certification
